

TELESCOPIC CONVEYOR

FOR

MECHANISING LOADING AND UNLOADING

CAPABILITIES - RIGHT TO THE FRONT OF CONTAINER / TRUCK FOR
HIGH VOLUME DESPATCH AND RECEIVING AREAS.

■ GENEROUS DESIGN ■ QUALITY INPUTS ■ EXCELLENT WORKMANSHIP ■ SYSTEM RELIABILITY

TELESCOPIC CONVEYOR

STANDARD FEATURES

LENGTH

Extended length available from 5100 mm. to 16800 mm.
Retracted length range from 3000 mm. to 5000 mm.

SPEED

Telescopic boom extension & retraction speed of 18 metres per minute.

SIDE PANEL

Solid plate bent steel.

BOOM SUPPORT

Heavy - duty wheel and rail.

BOOM DRIVE

Gearred motor with self compensating chain drive.

BELT

Belt of 2 ply, polyester PVC with top cover and adequate load rating.

BELT SPEED

In the range of 10 metres per minute to 50 metres per minute or even higher, if required.

Can be made variable by opting for variable frequency drive.

PAINT

Corrosion resistant painted finish as per customer request.

WARRANTY

One year factory warranty.

OPTIONS :

- * Hydraulic boom elevation.
- * Powered wheel with counter weight.
- * Rail system
(Flush with floor level or above floor).
- * Variable speed belt drive.
- * Belt width of 500 / 600 / 700 mm.

Call us for a free application analysis to determine operational efficiency that can be gained from telescopic conveyor system.

SPECIFICATIONS

SINGLE STAGE			
Model	Retracted Length (in mm)	Telescopic Projection (in mm)	Overall Length (in mm)
ATC-1-3/5.1	3000	2100	5100
ATC-1-4.5/8.1	4500	3600	8100
ATC-1-6.0/10.8	6000	4800	10800

DOUBLE STAGE			
ATC-2-3.0/7.2	3000	4200	7200
ATC-2-4.5/10.8	4500	6300	10800
ATC-2-5.4/12.9	5400	7500	12900

TRIPLE STAGE			
ATC-3-3.0/8.7	3000	5700	8700
ATC-3-4.8/15.0	4800	10200	15000
ATC-3-5.4/16.8	5400	11400	16800

Note : Due to constant improvisation, specifications and design of equipments are subject to change without prior notice.
